No candidate coming from any contagious disease will be admitted to the examination room.

(2) No candidate will be allowed to adjust the examination notes on any day until the expiration of 157 hours from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that full hour will not be admitted.

(3) No candidate will be allowed to enter the examination room during the hours of examination after once quitting it, nor to leave the room without finally giving up his answer papers.

(4) Any candidate detected as speaking to or at, or any way communicating with, any other candidate will be once excluded from the room, and the consequences reported to the Commissioners.

(5) Any candidate suspected of having had recourse to subterfuge of any kind is liable to have his examination invalidated and also to be detained from appearing again for any of the examinations under the control of the Commissioners for such term of years as the Commissioners may think fit; or, if the Commissioners are not of that opinion, to have his name entered as to the next examination, he may be required to undertake a re-examination at some future date to be fixed by the Commissioners in any one or more of the subjects of the examination for which he appeared, his name or failure being determined on the result of such re-examination.

(6) No candidate will, in any event, be allowed to take into the examination room, after, before, or during, or in view of any kind (in the case of candidates, however, coming up for the Account, Jail, and Judicial, Criminal Justice and Revenue Tests, the use of books will be allowed in answering certain questions papers), any one directed in the regulation of this rule, or having recourse to any other means, will be excluded from the room, and the consequences reported to the Commissioners.

(7) Candidates whose names are not in the official list furnished by the Superintendent must submit a written declaration through the Superintendent, giving full particulars in regard to themselves and furnish such evidence as may be possible of their having applied for admission to the examination at the proper time and paid the prescribed fees. The answer papers of such candidates will not be received unless it is clear that the omission of their names is due to an oversight of theirs.

(8) Candidates choosing to change their place of examination without previous permission, or appearing at one centre other than the one at which they ought to have appeared according to the place published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the superintendent or his clerk permitting the change should be produced for the satisfaction of the Superintendent.

(9) A candidate having completed his paper will rise from his seat and remain standing until the Superintendent takes his answer papers. Any candidate wishing to ask any question of the Superintendent will pause the same reason, but will on no account leave his place.

(10) Any papers sent up without the candidate's name and number affixed will not be valued.

(11) Candidates will not be allowed to take any papers, except their question papers, out of the examination room.

(12) Candidates are forbidden to tear up papers or to draw ink or papers on the floor. All "spoil papers, etc." should be left on the desk where the candidate has been writing.

NOTICE TO CANDIDATES FOR THE FRENCH-INDIAN TEST.

The following instructions are published in order that candidates may know what is expected of them in this test:—

Instructions to candidates.

The object of a prize is that any one who has not time to read the original consequences may, by reading the prize, be put in possession of all the leading features of what passed.

5. The candidate should begin by reading the whole of the correspondence mentally through without writing anything, so that he may clearly understand what is said and be in a position to decide what are the main heads under which the important facts should be arranged. He should then read through the paper again marking what is important.

6. The penman should begin with a brief and laconic introduction to the subject under treatment. This should be followed by a narrative in the past tense narrating a local and clear statement of the contents of the correspondence, not in the order of the papers, but in a logically chronological order, but in *logical order*. An abstract of every paper in the correspondence in an order of its contents is not a penman.

7. The merits of a penman—

- (1) to maintain all that is important in the correspondence and nothing that is unimportant;
- (2) to present this in a readable and concise shape, expressed in intelligible and distinctly as possible;
- (3) to be as brief as is compatible with completeness and accuracy;
- (4) to present a strictly accurate and logically connected statement of the contents of the correspondence.

No candidate can expect to pass who omits any one of the above important points; marks will be deducted if unimportant points are included, or if facts are repeated unnecessarily; it is not ordinarily necessary to give the date of every paper in the correspondence and the full name and designation of the writer or recipient of every letter; and if a fact is repeated in different papers it need not generally be noted more than once in the penman.

8. Grammar, spelling, style and handwriting will be considered in assigning marks; but it must be remembered that mere excellence in composition will not compensate for inaccuracy or incompleteness in the presentation of the facts of the correspondence.
